GROUNDWORKS
SERVICES

OUR GROUNDWORKS SERVICES

We are proud to deliver a collaborative groundworks service, enabling other construction firms to draw upon our specialist expertise and capabilities on a subcontract basis. We understand that many building companies do not maintain in-house groundworks operations, so provide a fully integrated, end-to-end solution encompassing excavation, demolition, footings, drainage, piling and beyond. Our highly experienced team applies the same exacting standards of care, precision and professionalism that define every Leckhampton project, ensuring your development begins on the firmest possible foundations.

GROUNDWORK

Here at Leckhampton Group, we provide comprehensive groundworks services for residential, commercial and industrial developments, delivering precision, reliability and safety at every stage.

- ◆ Footings
- ◆ Drainage
- ◆ Service installation
- ◆ Engineer service
- ◆ Muck away
- ◆ Block and beam
- ◆ Driveways
- ◆ Paving
- ◆ Block paving
- ◆ Concrete slabs
- ◆ Gabion wall design and build

LANDSCAPING

Our hard and soft landscaping services transform outdoor spaces into functional and visually striking environments. From patios, paving and retaining walls to turfing, planting and garden design, our experienced team combines craftsmanship with creativity to bring projects to life.

- ◆ Hard landscaping
- ◆ Soft landscaping
- ◆ Design
- ◆ Ecological
- ◆ Muck away

BULK EXCAVATION

Our bulk excavation services provide the efficient, large-scale earthworks needed to prepare sites for construction and infrastructure projects. Using modern plant and experienced operators, we manage everything from mass soil removal and site levelling to cut and fill operations, ensuring your ground is accurately shaped, stable and ready for the next phase.

- ◆ Design
- ◆ Earthworks
- ◆ Lake and pond construction
- ◆ Ecological
- ◆ Muck away

DEMOLITION

Our demolition services provide safe, controlled and efficient dismantling solutions for projects of all sizes. From full structural demolition to selective strip-outs and site clearance, our experienced team carefully plans and manages every stage to minimise disruption and ensure full compliance with health, safety and environmental standards.

- ◆ Full demolition packages
- ◆ Waste removal
- ◆ Land remediation
- ◆ Concrete crushing
- ◆ Soft strip

AGRICULTURAL

Our agricultural groundworks services provide robust, practical solutions tailored to the demands of farming and rural developments. From preparing and installing foundations for barns and steel-framed buildings, to gates, posts, roads and tracks, we ensure every element is built for durability and long-term performance.

- ◆ Drainage
- ◆ Foundations
- ◆ Roads and tracks
- ◆ Gates
- ◆ Concreting
- ◆ Fencing and posts

INDUSTRIAL

Our industrial groundworks services deliver the strength, scale and precision required for demanding commercial and infrastructure projects. From large-scale foundations and reinforced concrete works to drainage systems, service installations and external yards, we prepare sites to meet the highest structural and operational standards.

- ◆ Service installation
- ◆ Concreting
- ◆ Foundations
- ◆ Drainage systems
- ◆ Steel framed buildings

OPERATED PLANT HIRE

Our plant hire services provide reliable, modern machinery to support projects of every size and complexity. From excavators and dumpers to rollers and specialist equipment, our well-maintained fleet is available with experienced operators or on a self-drive basis to suit your needs.

- ◆ Excavators from 1-50 tonne
- ◆ Dumpers from 1-35 tonne
- ◆ Rollers
- ◆ Bulldozers
- ◆ Concrete crushers

PILING

Our piling services provide deep, dependable foundation solutions for projects where ground conditions demand additional support. Working with specialist equipment and trusted techniques, we install high-quality pile systems designed to transfer structural loads safely to stable ground below.

- ◆ Mini Piling rigs – 20 tonne piling rigs
- ◆ Mini piling
- ◆ Large scale piling
- ◆ Hollow stem piling
- ◆ Auger piling
- ◆ Piled walls
- ◆ Basement construction
